

ICRM Nuclear Decay Data and Beta Spectrometry Working Groups

Tuesday 27th October 2020

Laboratoire National Henri Becquerel (LNHB), Gif-sur-Yvette, 91191, France

Web meeting, Central European Time (CET)

[LINK \(available soon\)](#)

PROPOSED AGENDA

Tuesday 27th October

ICRM Nuclear Decay Data Working Group

14:00	14:10	Introduction	M.A. Kellett
14:10	15:00	Nuclear Data Activities within NMIs (LNHB, NIST, PTB, NPL, CIEMAT, ...)	All
15:00	15:20	Consistency of recommended data and international intercomparisons, citing evaluated data, ...	Discussion – All
15:20	15:50	Roundtable: future requirements, activities, coordination, ...	Discussion – All

15:50 Close of Meeting

15:50 16:10 *Coffee break*

ICRM Beta Spectrometry Working Group

16:10	16:20	Introduction	X. Mougeot
16:20	16:40	New version of the BetaShape code	X. Mougeot
16:40	17:10	Measurements of beta spectra with silicon detectors	A. Singh
17:10	17:30	Beta Spectrometry Activities within NMIs	To be confirmed
17:30	18:00	Roundtable: user requirements, spectral deconvolution and uncertainty assessment, possible future projects, link with other communities outside metrology, ...	Discussion – All

18:00 Close of Meeting
